

ThermoPro TP67B Indoor Outdoor Wireless Digital Thermometer Hygrometer with Weather Forecast

SKU: THEPROTP67BWH
Manufacture Warranty period: 12 months
Country of Origin: China

Introduction

Equipped with a professional grade rechargeable sensor, making it the perfect choice to get accurate current measurements. Weather station tracks the weather-related variables including temperature and barometric pressure change to generate a forecast for your exact location. No longer waste time watching the TV or browsing weather websites. Bright, large display that's informative at a glance. TP67B helps you confidently making the necessary adjustments in your daily life in advance.

Features

- Rechargeable lithium battery technology resists cold weather and monitor temperature as low as -35°C (-31°F)
- Completely sealed to be waterproof ensure transmission in rain or snow.
- Enhanced 868 MHz transmission frequency up to 330ft/100m away(range maybe shorter based on interference present) .
- Weather Forecast, temperature and humidity percentages trend indicator arrow help you to make necessary adjustments in advance.
- Barometric Pressure (hPa or inHg) with 12-hour history graph and records.
- Includes all-time high and low records for temperature and humidity.
- Professional accuracy 2-3%RH and $\pm 1^{\circ}\text{F}/^{\circ}\text{C}$ to provide the most reliable readings possible.
- Display stands upright for tabletop use or is wall-mountable,base is detachable.
- Rechargeable outdoor sensor, one full charge can last for more than 1 year.
- Sync up to 3 outdoor remote sensors to monitor different locations (additional 2 sensors sold separately).

Specifications

Temperature	
Resolution:	0.1 °C (0.1° F)
Accuracy:	± 1.1°C (2.0°F)
Humidity	
Range:	10%~99%RH
Resolution:	1%RH
Accuracy:	±2% from 30%RH to 80%RH; ±3% below 30%RH and above 80%RH
868 MHz transmission frequency	
Transmission Range	Up to 100m / 330ft. (range maybe shorter based on interference present)
Indoor Temperature Range	-20°C~70°C (-4°F ~ 158°F)
Outdoor Temperature Range	-35°C ~ 70°C (-31°F ~ 158°F)
Barometric Pressure range	23.62-32.48inHg (800mbar-1100mbar)
Barometric Pressure Tolerance	+/-0.059inHg(+/-2mba)
Operation temperature	+10~60°C

Base station (Receiver)	
Dimension	165 x 100 x 46mm
Weight	approx. 220g (included batteries)
Power supply	1.5V (AAA size) X 2
Remote sensor (TX-4 Transmitter)	
Dimension	63 x 74 x 26mm
Weight	84g (includes batteries)
Rechargeable lithium battery technology resists cold weather as low as -35°C (-31°F), assuring transmission in any harsh environment.	
Storage condition	-20°C~60°C, 20~80%RH

Package includes

1 x base station unit (Receiver)
1 x remote sensor (TX-4 Transmitter)
1 x Charging Cable
2 x AAA battery
1 x User Manual

Max **330FT / 100M** Wireless Range
Up to 3 Remote Sensors

! Product contains only 1 sensor, more sensors can be ordered separately.

WEATHER FORECAST
Forecasts the weather according to the rate of change of the barometric pressure

Rising (up)	Falling (down)
≥ +0.18	≥ +6
+0.18	+4
+0.18	+2
0	0
-0.18	-2
-0.18	-4
≤ -0.18	≤ -6
InHg/Hr	Hr/hpa

Comparing Baseline

Rainproof and **-31°F (-35°C)** Cold Resistant
