

Support GS1

UbiBot 10W Solar Cell Panel (340 x 240mm) – 5m cable for GS1

SKU: UBIDSP10WGS1
Manufacture Warranty period: 12 months
Country of Origin: China

Introduction

This solar-cell panel, equipped with DC interface, it can be used with GS1 to provide sufficient power for your device in outdoor conditions. The product supports IP65 waterproof and can be used in light rain.

Features

- Energy conservation and environment protection
- High efficiency
- IP67 waterproof

Specifications

Solar Panels Type	Polycrystalline
Working Voltage	5V DC
Working Current	2A
Operating Temperature	-20 to 60°C
IP rating	IP67
Cell Conversion Efficiency	18.5%
Peak Power	10W
Maximum Voltage (Vmp)	5.00V
Open Circuit Voltage (Voc)	6.2V
Maximum Current (Imp)	2.00A
Short Circuit Current (Isc)	2.13A
Dimension	340 x 240 x 17mm ±0.5
*All Technical Data at Standard Test Condition: Am=1.5; E=1000W/m ³ ; To=25°C
