Termoprodukt DT-11

Food Pocket HACCP Thermometer (Folding Probe) -50~+270ºC (0.01°C)

SKU: TERMODT11WH
Manufacture Warranty period: 12 months
Country of Origin: Poland

Introduction

Pocket digital thermometer DT-11 with 0.01°C resolution, accuracy 0.05°C, fast response time 5 sec. Industrial pocket HACCP thermometer for food, catering, labs, restaurants with temperature range -50°C to 270°C. Low cost universal pocket digital thermometer features big digits and a backlight for dark conditions.

Temperature pocket meter is supplied with PT-1000 sensor temperature sharp-tipped probe ST05-P-07-02, probe sizes: 3.3x120mm.

Food pocket probe thermometer DT-11 is battery Li-ion power supply: 3.7V 400mAh. Charging by micro USB-B/ 200mA. Charging time 1.5 h. Working time after charging 2 months.

Features

- Measuring in °C or F
- Display resolution 0.01°C
- Low battery indication
- 1000 PT sensor
- Simple and fast control
- High accuracy
- Measurement stable in time
- Backlight
- Low battery indication

Specifications

Temperature	
Range:	-50ºC ~ +270ºC (-58ºF ~ +518ºF)
Accuracy:	±0.05ºC at -10ºC ~ 110ºC
Resolution:	0.01ºC (0.01ºF)
Sensor:	PT1000
Operating Temperature:	0ºC ~ +40ºC

Protection	IP65 device, IP67 probe
Probe type	penetration
Temperature Measuring Period	less than 5 sec
Power supply	3.7V 400mAh Li-ion battery (Rechargable)
Working time	approx. 2 months
Body material	environmentally-friendly ABS, digital LCD display
Probe material	321 stainless steel
Body Size	154 x 37 x 16mm
Probe Size	3.3 x 120mm
Weight	85g (include battery)
