ThermoPro TP358
Smart Wireless Digital Room Thermometer Hygrometer with Alert (Bluetooth 5.0)

SKU: THEPROTP358BK
Manufacture Warranty period: 12 months
Country of Origin: China

Introduction

With Swiss-made high-precision sensors, the ThermoPro TP358 will read and record the slightest changes in temperature and humidity. With the arrow trend indicators, you will be able to react ahead of time such as adjusting your thermomstat or humidifier. TP358 is capable of a long 260ft range to send data directly to your phone. Receive alerts for when you exceed the maximum or minimum temperature or humidity presets, and save yourself the hassle of re-checking your wall thermometer indoor. All data is now at your fingertips.

Features

- Remote Range: 260ft/80m;
- Temperature Range: -20°C ~ 60°C (-4 °F ~ 140°F), with resolution of 0.1°C/°F;
- Humidity Range: 10% ~ 99%, with resolution of 1%;
- Temperature Tolerance: ±0.3°C; (±0.5°F);
- Humidity Tolerance: ±2%;
- Temperature Display Unit: C°/F° selectable;
- Trend Arrows;
- Clock and Air Comfort Level;
- Heat Index & Year-Long Dynamic Graphs.

First-Rate Accuracy

This digital thermometer hygrometer uses the latest Swiss-made Sensirion sensor technology to provide an accuracy of up to ±0.5°F and ±2% RH. This temperature thermometer's 10-second refresh will constantly keep you informed of any change to your environment.

Extended 80m Coverage

This 5.0 SIG-certified Bluetooth hygrometer digital is guaranteed to have the highest reliability. Use your phone to check your home's temperature and humidity at any time.

Smart App Notifications

Receive alerts for when you exceed the maximum or minimum temperature or humidity presets and save yourself the hassle of re-checking your wall thermometer indoor. All data is now at your fingertips.

Heat Index & Year-Long Dynamic Graphs

App contains informative Heat Index metric so you know what the temperature truly feels like. ThermoPro Bluetooth Temperature Sensor App lets you analyse temperature and humidity trends over a day, week or year, making it perfect for recognizing patterns in your environment.
