Introduction

With highly accurate temperature readings ($\pm 2\sim 3\%$ RH and $\pm 1^\circ\text{C}$) and a wide temperature range from $-50^\circ\text{C} \sim 70^\circ\text{C}$ (-58°F to 158°F), humidity range from 10% to 99% RH, the humidity meter TP50 is the perfect monitoring device to keep you and your environment conditions optimal.

Not just reliable readings, the temperature and humidity monitor is equipped to give you daily updates on the record humidity/temperature high and low of any given day, allowing you to compare the current readings to those of the past.

Another convenient feature is sensitive humidity sensor will quickly inform you of the comfort level (DRY, COMFORTABLE, WET) in the environment based on the humidity.

The digital hygrometer TP50 is easily portable and has a stand for tabletop use or a magnet if you wish to have your device attached to an office metal cabinet, metal shelving, or magnetic whiteboard.

Features

- 2.7" smart display with large numbers allows you to read easily and move the device from location to location.
- The humidity temperature gauge displays all-time high and low records for both humidity and temperature.
- The magnet on the back can be attached to the refrigerator or any metal surface.
- The humidity gauge features a kickstand and sets the device upright at an easy-to-read angle.
- Press the button on the back to switch between $^\circ\text{C}$ and $^\circ\text{F}$ and hold for 2 seconds to clear the record maximum and minimum humidity/temperature readings.
