

ThermoPro TP90 LED Smart WiFi Indoor Hygrometer Thermometer Humidity Sensor Compatible with Alexa

SKU: THEPROTP90BK
Manufacture Warranty period: 12 months
Country of Origin: China

Introduction

ThermoPro WIFI remote sensor not only quickly and accurately broadcasts the current temperature and humidity of each room, it allows you to be able to conveniently look up historic temperature and humidity readings from any location via an APP installed on your cellphone.

When you ask Alexa the temperature and humidity of a room, Alexa will respond to you by announcing the current temperature and humidity retrieved from the device.

Features

- Displays real-time temperature and humidity. Premium sensors provide accurate humidity and temperature readings. Accurate to $\pm 2^{\circ}\text{F}$ and $\pm 3\% \text{RH}$
- Displays 24hrs/7-Days humidity and temperature historic trends with Max & Min records, so you always stay informed about changes to the environment on your phone.
- Features 3 comfort level indicators COMFORT/WET, allowing you to be aware if adjustments are necessary for your AC or humidifier.
- Add and monitor an unlimited number of temp and humidity sensors within the APP for as many locations as you wish.

Wirelessly Track for Multiple Locations

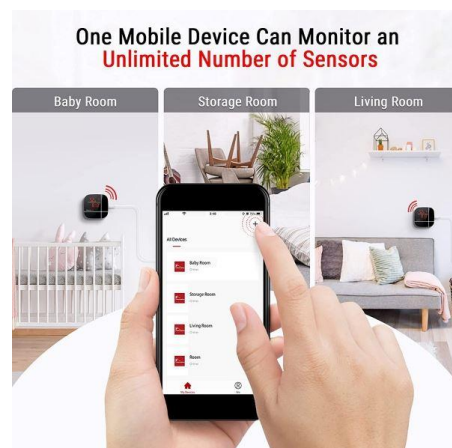

The “ThermoPro Home” app is capable of displaying the readings from unlimited TP90 temp and humidity sensors to ensure you can monitor as many locations as you wish such as your living room, baby’s room, and storage room at the same time.

Precise, Responsive Readings

Accurately monitor the current indoor humidity & temperature to within $\pm 1^{\circ}\text{C}$ and 3% Lightning quick response time, taking measurements every 30 seconds via a highly sensitive sensor to provide the most updated and accurate readings available.

Environmental-Friendly Design

The smart thermometer is powered by an AC adapter and a USB charging cable (Included). Saving you hundreds of dollars in replaceable batteries and reducing landfill waste.

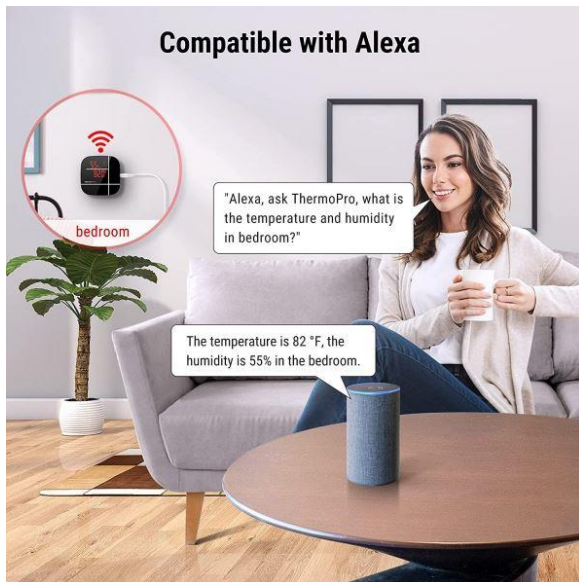

Specifications

Temperature	
Range:	-50~+70°C (-58~+158°F)
Resolution:	0.1 °C (0.1° F)
Accuracy:	± 1.1°C (2.0°F)
Humidity	
Range:	10%~99%RH
Resolution:	1%RH
Accuracy:	±3%RH

Operation temperature	+10~60°C
Power supply	5V / 1A
Product dimension	90 x 90 x 27.5mm
Weight	approx. 94g
Storage condition	-20°C~60°C, 20~80%RH

Package includes

1 x Temperature and humidity sensor
1 x USB Charging Cable
1 x AC Power Adapter
1 x User Manual

Remotely Monitor Temperature and Humidity Anywhere via WiFi
